PROFESSIONAL SUMMARY

Frontend Developer with 2.5+ years of experience building responsive, pixel-perfect web interfaces using HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Bootstrap and jQuery. Skilled in designing reusable UI components and responsive layouts in React.js, adding interactive animations with GSAP, and integrating APIs to fetch and render dynamic data. Comfortable with Git for version control.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: Tailwind CSS, Bootstrap, jQuery, React.js (UI & Component Design), GSAP (Animations)

Tools & Practices: Git, GitHub, API Integration (Fetching & Displaying Data), Responsive Design, Cross-Browser Compatibility

Soft Skills: Teamwork, Problem-Solving

EXPERIENCE

Frontend Developer — Cloudwapp Technologies Private Limited

Jun 2025 – Present

- Built responsive, pixel-perfect user interfaces using HTML, CSS, Bootstrap and React.js for client-facing modules.
- Designed reusable UI components in React.js, improving visual consistency and reducing duplicate code across the codebase.
- Integrated APIs to fetch and display dynamic data on dashboards.
- Collaborated with cross-functional team members to deliver UI features on schedule and maintain design consistency.

Frontend Developer — Mactosys Software Technology Pvt. Ltd

Jan 2025 – May 2025

- Converted UI/UX designs into fully responsive frontend pages using HTML, CSS, JavaScript and Bootstrap.
- Built and maintained a clean, reusable frontend code structure to speed up future feature development.

Web Designer — PNOX Solutions

Jan 2024 – Dec 2024

- Converted UI designs into responsive web pages using HTML, CSS and Bootstrap.
- Developed page layouts aligned with brand and design guidelines.

PROJECT HIGHLIGHTS

- React Component-based UI Design — built modular, reusable UI components for scalable frontends.
- Responsive Dashboard Interfaces — designed dynamic dashboards with API-driven data display.
- API Integration — connected frontend interfaces to backend services to fetch and render live data.
- Interactive Animations — added engaging UI animations and transitions using GSAP.
